*Supporting Educational Projects
Related to the Petroleum,
Energy and Allied Industries*

~

*A tax-exempt foundation of the
Association of
Desk and Derrick Clubs*

~

Est. 1987

Welcome to the Foundation!

This is a first in a series of newsletters that the Trustees will put together to inform you about we do, our purpose and how we can serve you.

WHAT IS IT?

The ADDC Foundation is an educational tax-exempt 501 (c) (3) corporation set up as a public service foundation. The Foundation assists the Association, its members, and others in the petroleum, energy, and allied industries in developing educational projects and programs related to those industries. Contributions are considered by the IRS to be tax deductible.

WHAT DOES IT DO?

The ADDC Foundation supports several worthwhile areas of service to Desk and Derrick members and to others in the petroleum and allied industries. These include:

- * Workshops, Symposia, Seminars
- * Educational Publications and Media
- * Research
- * Certification Programs
- * Educational Outreach projects

WHY DO WE NEED IT?

The only thing about which the futurists agree is that there will be change in every phase of our lives in the years to come. Increased education is the way to manage change. The ADDC Foundation can support the needs of the petroleum, energy and allied employees in the future, have textbooks and videos published and then sponsor study courses in these new technologies.

HISTORY

Idea for ADDC Foundation approved by Delegates at 1986 ADDC Convention. Initial Board of Trustees approved by ADDC Board in February of 1987. State of Oklahoma Certificate of Incorporation approved July 8, 1987. IRS Letter of Recognition and Exemption received October 8, 1987 (A publicly supported organization described in Section 509 (a) (2), exempt under Section 501 (c) (3) of the Internal Revenue Code).

SUPPORTS

- * ADDC Certification Programs
- * Energy Education Kits for Schools/Museums
- * California: Energy Trendsetter Panel
- * International Energy Symposium
- * OSHA Safety Certification Training
- * COPAS Certification Seminars & Testing
- * Oil and Gas: The Molecular Story
- * Project E³
- * Work related to PetroMolly™
